# RECOGNITION FAVOURED IN HONG KONG

Recognition—whatever form it may take—of the new Communist regime in China will be favourably received by all sections of the Colony's population; according to a survey made by the "China Mail" yesterday.

The consensus of opinion is that recognition is inevitable, and the sooner it materialises, the better it will be in so far as Hong Kong is concerned.

This opinion is based mainly on the belief that the economic position of Hong-Kong is closely tied up with that on the Chinese mainland.

out that Hong Kong is essentially an entrepot, and in order to sustain its economy, steady trade with China is vitally important.

But will the Communists, after haves. recognition, reciprocate this craving for trade? The reply to this is seen in the eagerness of the Chinese Communists in North China to trade, not only with Chinese, but also with Western merchants.

Tue majority opinion is that with the entire neighbouring province under Communist control Hong Kong would afford the Communists a source from which to acquire goods and materials badly needed for the country's rehabilitation, free from the sea blockade put up by the Nationa-

#### Resident's Complaint

Sir,-I notice from an item in your paper of resterday that a mo-called Happy Valley and Canal Road Kaifong Welfare Association was officially inaugurated on

As one who has resided in the Canal Road area for more than 15 years and as one of the many residents in that area who has hever been virenlarised regarding the lorrantion of this to-called Welfard Association, I would be glad if those concerned, particularly the Social Welfare Officer, could furnish information on the following points:

(a) Why all residents of the Happy Valley and Canal Road area were not circularised regarding the formation of the socalled Welfare Association?

(b). How the officers of this so-called Welfare Association came to be elected or nominated into office? (c) The qualifications of the different officers elected

minated into office? Until such time as the foregoing questions can be satisfactorianswered, the right of the offiers of the so-called Welfare Association to speak or act on behalf of all residents of the Happy Valley and Canal Roal area not admitted and will be chal-

Before concluding, I would like to make it quite clear that I am not opposed to the formation of a Welfare Association. I agree that such Associations are highly desirable, particularly in a place like Hong Kong, I am, however, strongly opposed to the manner in which the so-called Valley and Canal Road Kaifong Welfare. Association has been foisted upon the residents of that area by a body of individuals who cannot lay claim to being the "people's choice."

### Remarque's Novel Comes To Queen's

When "The Other Love" opens at the Queen's Theatre it will mark Erich Maria Remarque's fifth contribution in the motion picture field and the first time his latest and as yet ununpublished novel will be presented to an audience.

Starring Barbara Stanwyck, David Niven and Richard Conte, "The Other Love" unravels the threads of mental conflict which a concert pianist goes through after a collapse because of too strenuous a tour until she comes to accept the resultant shortened life span and and prescribed inactivity.

David Niven plays the doctor; In fact, devotees of Remarque who falls in love with his patient will recognise his use of action and Richard Conte portrays a as a delineating frame-work for sportsman playboy who provides the mental and motional develop-Miss Stanwyck, as the pianist, ment of his characters in this with a final fling of tempestuous work much as he handled it in

Woodford, October 26. Winston Churchill, leader of the Conservative-Party, criticising the Government's economic policy, said here tonight that he could not conceive that the sending of "unrequited exports" to such countries as India and Egypt should have been allowed to go on.

The Conservative leader, addressing more than 1,000 of his constituents, said, "They (the Government) talk of unrequited exports.

We are spending many hundreds of millions in sending exports out of this country to places like India and Egypt which we protected in the war from Japan and Italy, and in return we are getting nothing to re-nourish ourselves, to revitalise our efforts and to re-animate ourselves.

### Warning On Germ Warfare

Washington, October\_26. Major General Anthony Mc-Aulifie, new chief of the Chemical Corps, said today that the United States must be prepared to combat germ warfare in the event of war with Rus-

He described the Russians as ruthless and said they would use anything they could get hold of.

He did not think the United States would use gas or germs as weapons except in retaliation. The atomic bomb still is the United States' greatest weapon, he added.

General McAuliffe made these statements to reporters as he took over the command of Chem ical Corps. He succeeded Major-General Alden Waitt, who was because of his connection with "five per centers." The stocky, ruddy complexioned officer, who gained World War II fame with his reported reply of "nuts" to a German surrender demand, acknowledged, that his technical knowledge of chemical and biological warfare is limited But he expressed confidence

that he could do a good job in running the Chemical Corps. He said he understood that the Chemical Corps is making good progress in gas and germ warfare and the development of radiological defences. General Mc-Auliffe had been commander of the 24th division in Japan.-United Press,

### Imperial Preference

Margins of Preference guaranteed to Commonwealth countries in existing Trade Agreements are affected by only two United Kingdom reductions (codliver oil and blue-veined cheese) These concessions were, of course, offered in agreement with the Commonwealth countries concerned, which were able to claim credit for the reductions when negotiating with the !foreign countries primarily interested.

A certain number of unguaranteed preference margins, which were originally accorded in the normal structure and operation of the United Kingdom tariff, have also been reduced, again in agreement with the Commonwealth countries concerned. The most important item is unwrought eliminated; Canada obtained com- bourne. pensation for loss of the preference margin on this item by direct negotiation with Norway, in whose interest the concession was made. The remainder of the reductions which the United Kingdom has undertaken to make in margins of preference are for the most part incidental to reductions agreed in the most-favourednation rates of duty.

The total value of United Kingdom imports of the commondities concerned from countries enjoying the preferences was £4.8 million in 1938. The amount of trade affected

by reduction of the margins of preference on goods imported by the Commonwealth from United Kingdom is very small £50,000 worth in terms of 1938 Kowloon, Wharf &

In view of the welcome return to form shown by the "Scorpions" in their game against RAF last week, tomorrow's match against last season's Champions should prove to be a rare treat and a match which it would be worth going a long way to see.

### Ortiz Outpoints Jackie Paterson

Glasgow, October 26.

Manuel Ortiz, the world bantamweight champion, outpointed Jackie Paterson, former world flyweight champion, in a 10-round open-air contest at Hampden Park tonight.

Both weighed inside the stipulated eight stone 12 pounds limit for the fight, which had been postponed from last Wednesday. Between 12,000 and 15,000 people braved bitterly cold weather and frost to watch the fight but heavy rain which had fallen for several days fortunately held off.

by dressing gowns and blankets on their way to the ring during the intervals, the gloves had been put on in the dressing room to avoid waste of time. Rarely have the preliminaries been rushed through so speedily for a fight, and after Ortiz had kneit and crossed himself the two were fighting.

Paterson early attempted land with swings but did not connect apart from one blow to the champion's head. Ortiz was taking a long time to warm up, but he won an exchange of punches in Round 3, and in the next he was obviously measuring up for a knockout.

Looked Very Worried Paterson could not keep him away although he landed some good punches. Paterson was in trouble in the sixth round and looked very worried when the bell gave him a breathing spell In Round 7 Paterson, after taking several blows to the body was down for a count of nine with a solar plexus punch.
